0%	10%	20%	30%	40%	50%	70%	80%+

Explanation: This table shows the percentage of people in each age group by ethnicity and DHB region who have received their first and second dose of the COVID-19 vaccine. 'All Ages' refers to all eligible people over the age of 12 (identified from the Health Service Users 2020 dataset).

Example: 86% of all eligible Māori in the Auckland DHB region have received their first dose of the COVID-19 vaccination. 97% of all Māori over the age of 65 have received their first dose of the COVID-19 vaccine.

A result over 100% means that for that particular population groups and DHB, more people have been vaccinated than expected based on the 2020 population of health service users.

Vaccination data sourced from the Covid Immunisation Register (CIR)
Ministry of Health - CVIP Equity Team
