Subject: MMR vaccine update

Kia ora koutou,

The Ministry has been notified that the 107,520 doses of MMR vaccine has arrived and passed QA assessment. This means that it should be available for distribution from HCL to ProPharma from 10 October 2019 - more than one week earlier than previously advised. We have updated the vaccine allocation to allow you to order a larger amount of vaccine for your DHB from 14 October 2019. The NHCC will continue to work closely with PHARMAC to ensure that HCL and the regional distribution centres are able to supply you with your allocation. Please do not hesitate to contact us if you have any problems.

A letter informing vaccine providers about the changes associated with the 107,520 MMRII doses is attached. We would appreciate your assistance in distributing this to providers.

The updated allocation table is attached.

Ngā mihi
