

Tatau Kahukura 2010 2nd Edition

Ngā Mana Hauora Tūtohu

He aha te roa e tumanako ai tātou kia ora ai tātou?

- I te tau 2006 te tumanako e ora ai te Māori mai i te wā o te whānautanga mai waru tau raro iho i te tau iwi mō ngā tāngatanga katoa
- I ngā tau muri ake o te 1970s me mua o te 1980s ka āhua piki ake te oranga. I tēnei wā i noho hū tonu te ora o te Māori i te wā e piki tonu ana te oranga o tau iwi
- Mai te tau muri ake o te 1990s kei te piki haere tonu te ora o te Māori rite tonu ki tau iwi, ētahi wā āhua tere ake te piki

He aha ngā whakāturanga o ngā tūtohu e pā ana ki te ischaemic mate Manawa?

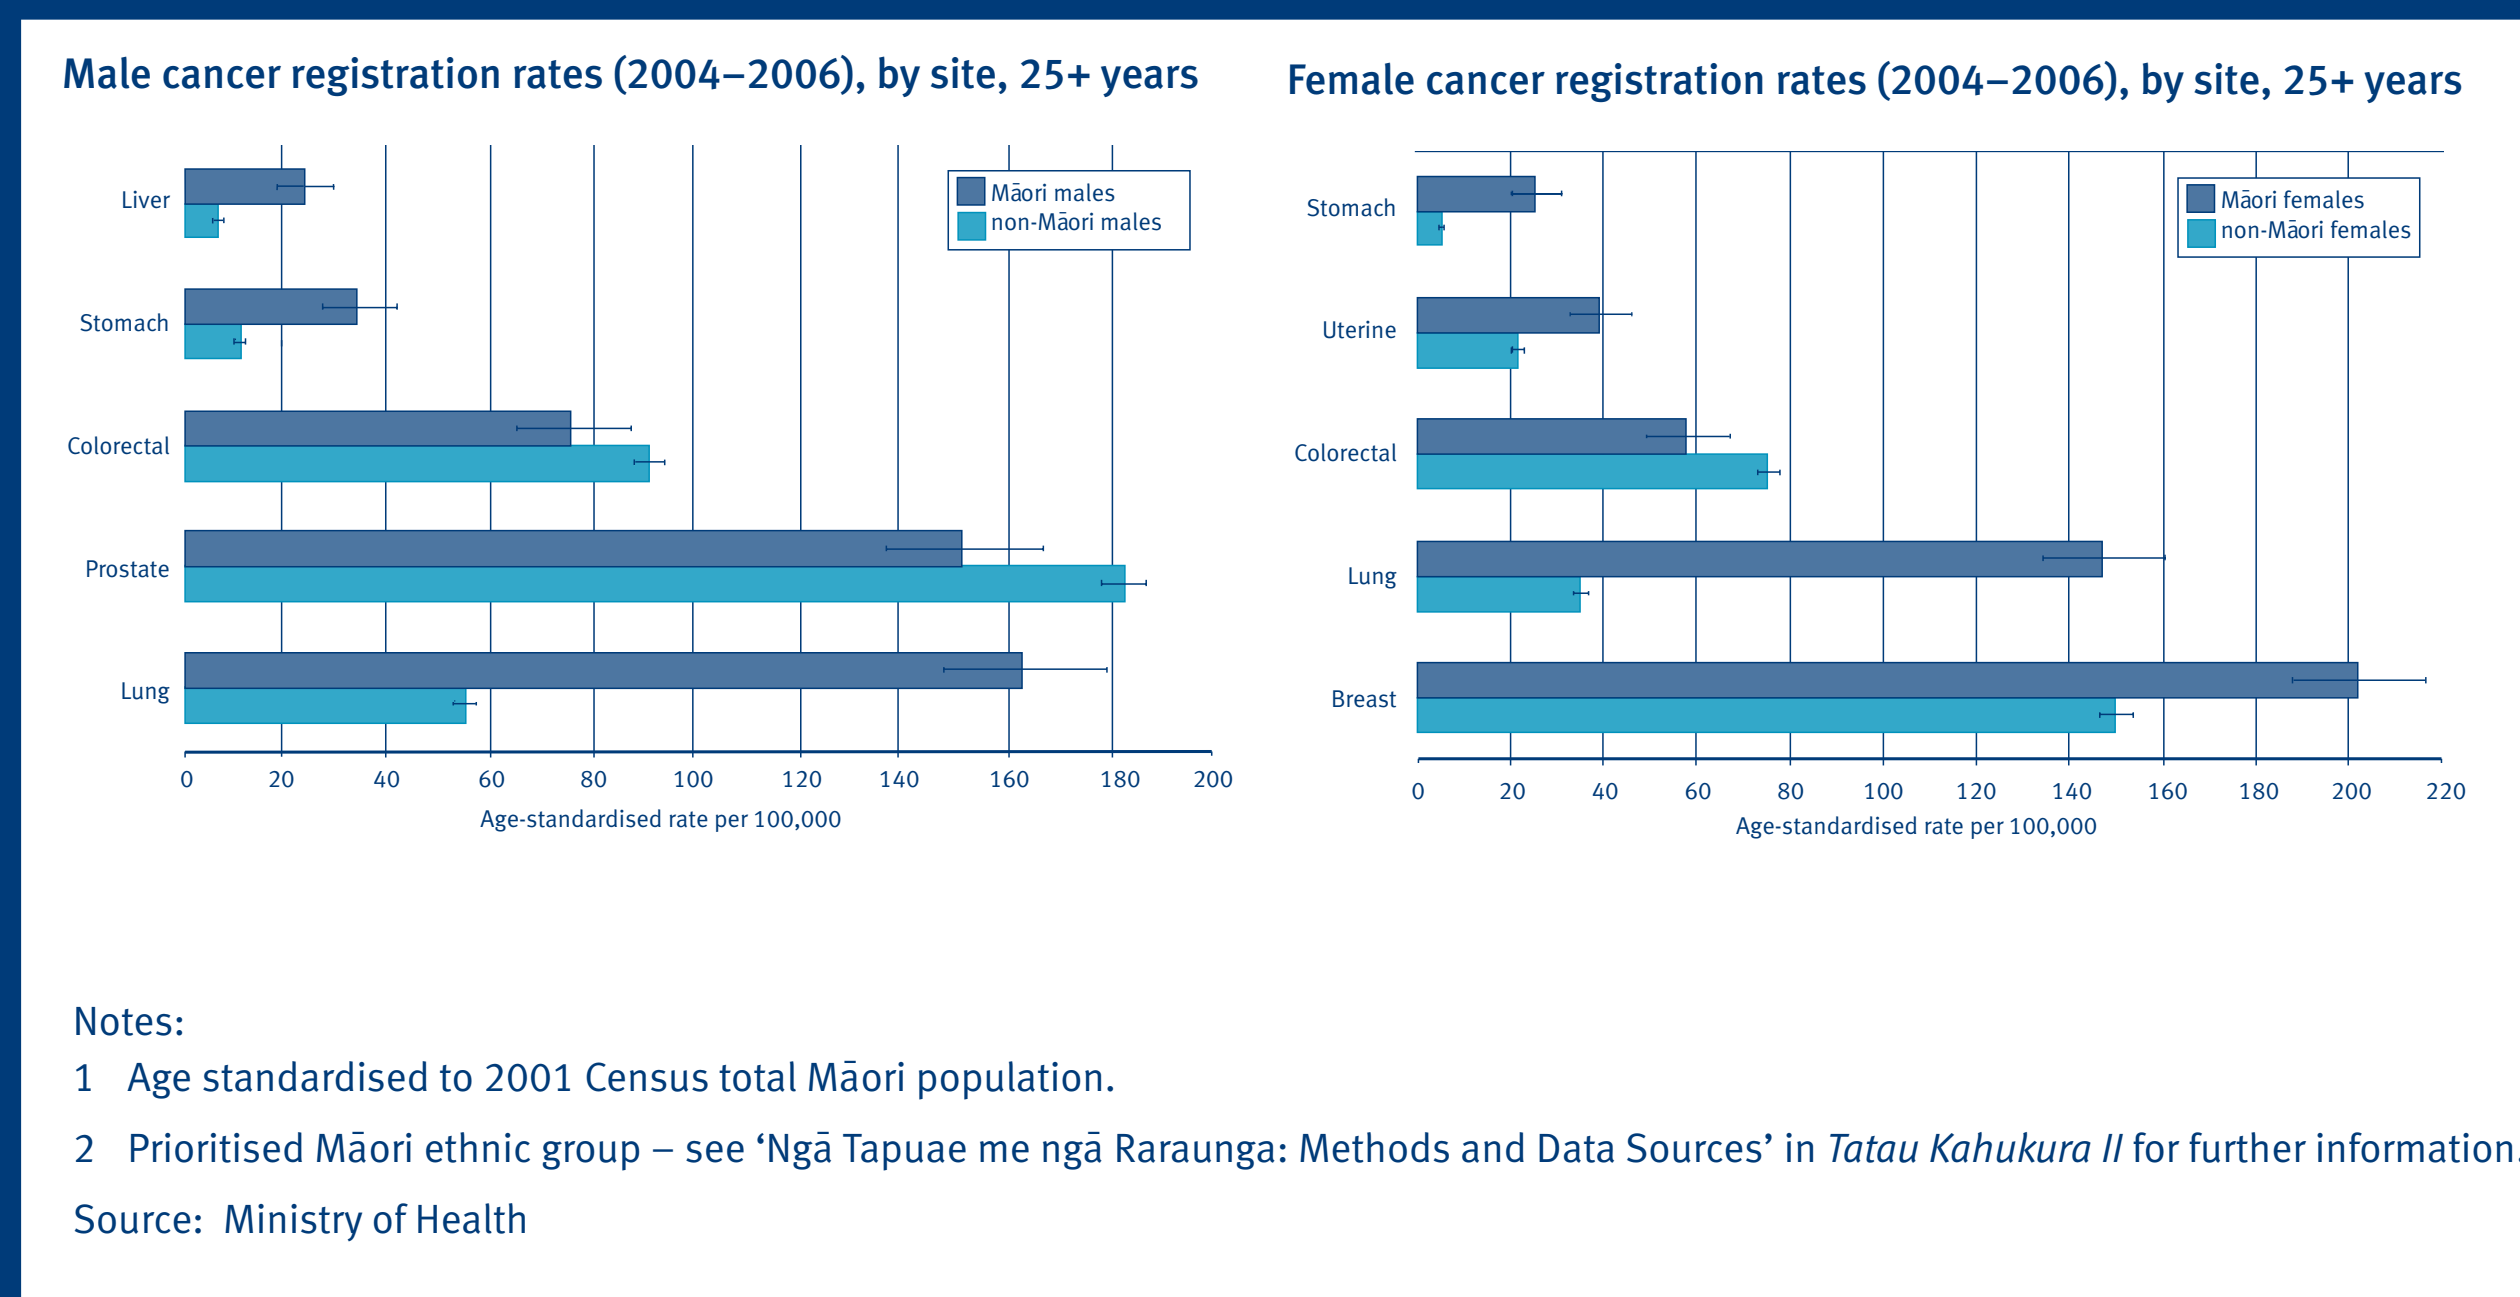

Indicator	Māori			non-Māori		
	Males	Females	Total	Males	Females	Total
Ischaemic heart disease mortality, 35+ years, 2004-06, rate per 100,000 ^{1,2}	337.2 (316.1-359.3)	151.9 (139.3-165.3)	238.3 (226.3-250.7)	135.3 (132.4-138.1)	59.6 (58.2-60.9)	95.1 (93.6-96.5)
Ischaemic heart disease hospitalisation, 35+ years, 2006-08, rate per 100,000 ^{1,3}	1583.0 (1504.9-1665.1)	1203.3 (1136.3-1274.2)	1392.6 (1340.5-1446.8)	1306.1 (1287.2-1325.2)	586.1 (573.5-599.1)	928.5 (917.3-939.9)
All revascularisation (CABG and angioplasty) heart disease procedures, 35+ years, 2006-08 rate per 100,000 ^{1,3}	261.4 (234.0-292.0)	125.9 (107.6-147.2)	189.9 (173.4-207.9)	278.4 (269.7-287.3)	81.4 (76.6-86.4)	176.5 (171.6-181.5)

Notes:
1. Age standardised to 2001 Census total Māori population.
2. Prioritised Māori ethnic group - see 'Ngā Tapuae me ngā Raraunga: Methods and Data Sources' 'Tatau Kahukura II' for further information.
3. Ethnicity adjusted rate - see 'Ngā Tapuae me ngā Raraunga: Methods and Data Sources' for further information.
4. Coronary artery bypass graft.

Source: Ministry of Health

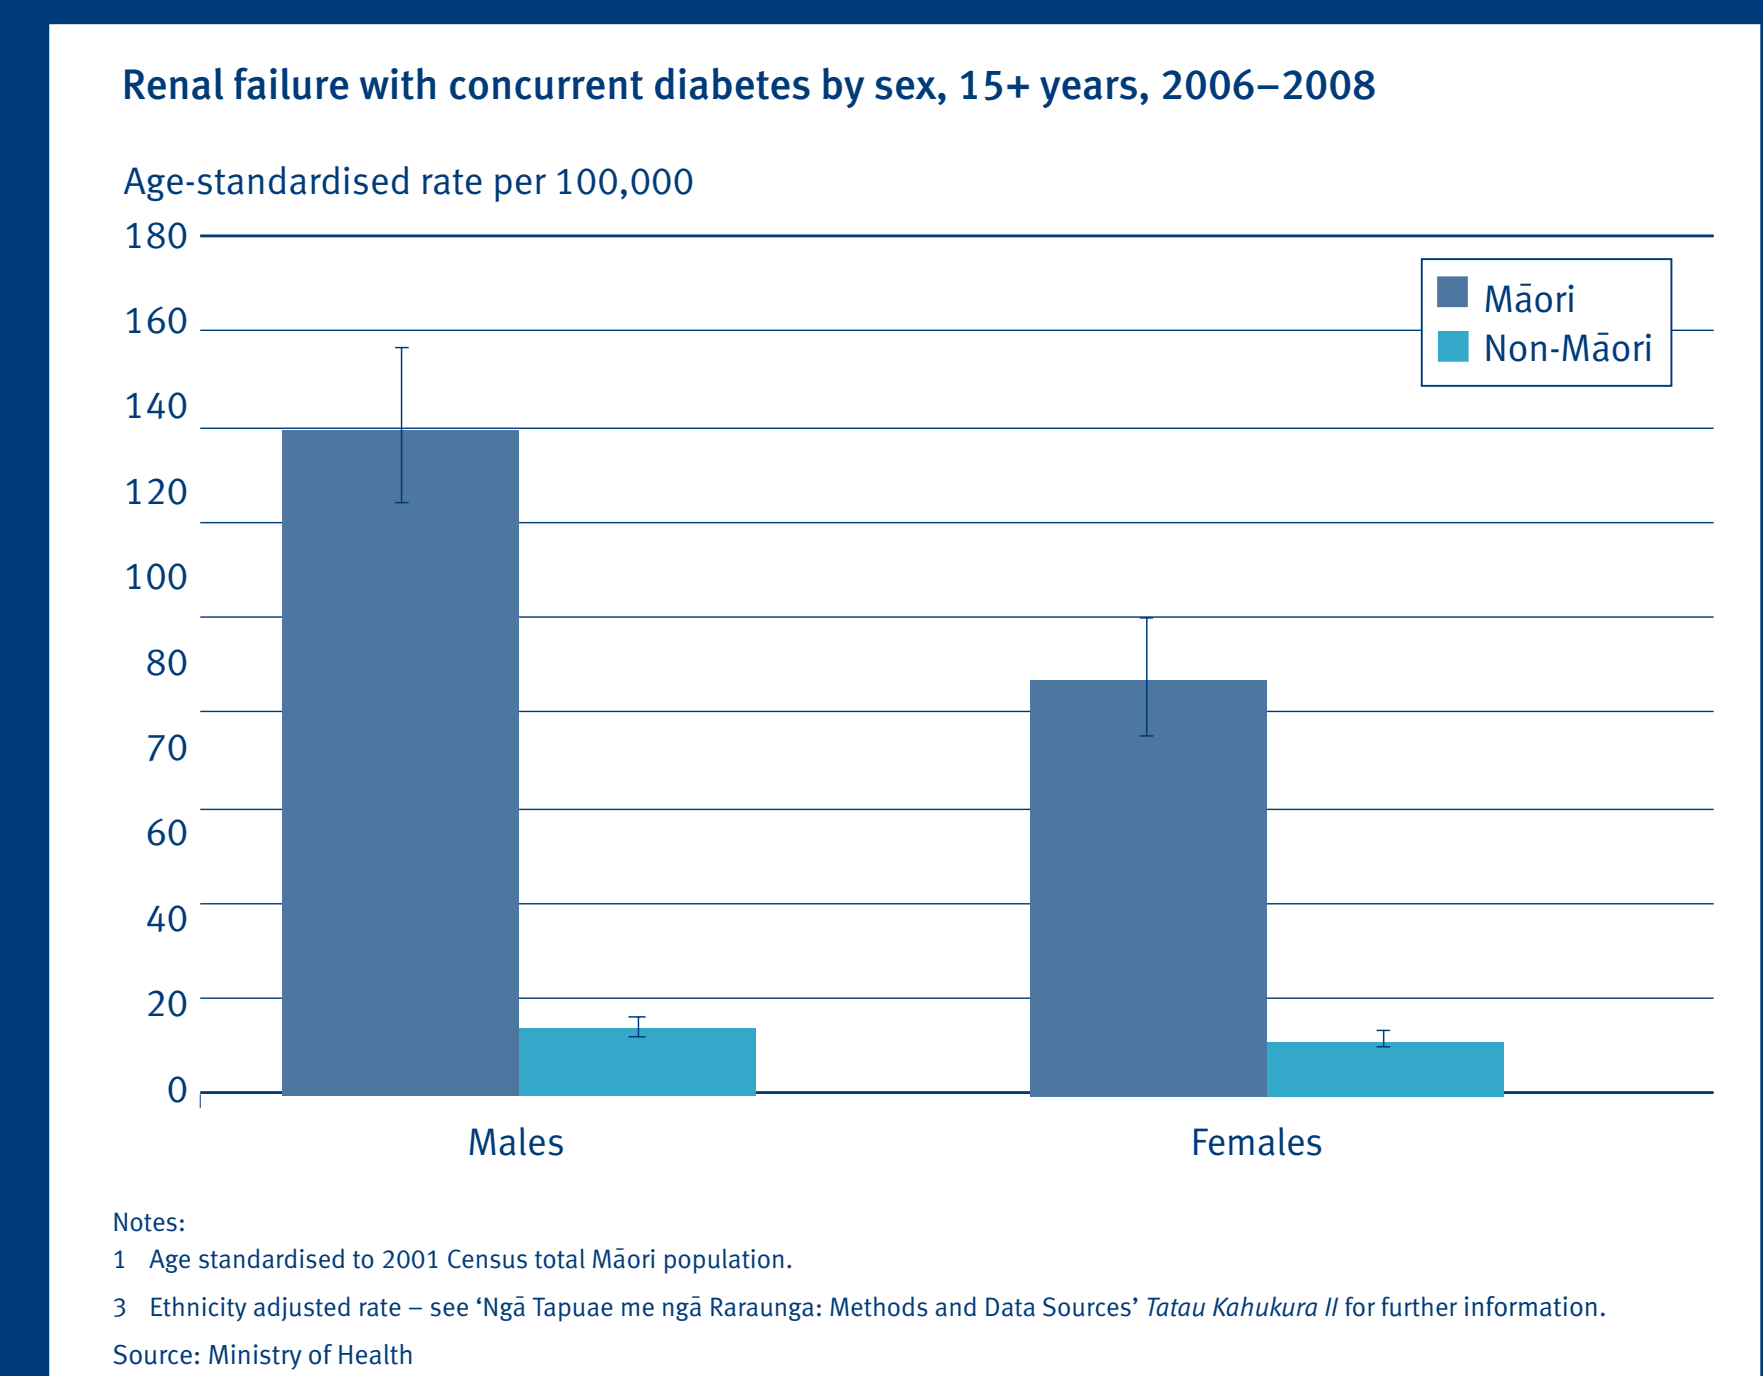

- I waenganui i ngā Māori te ischaemic mate manawa mate rua hāwhe i tā tau iwi, ana me te Māori tahi hāwhe nui atu te wā e tau ai rātou ki te hōhipera mō te ischaemic mate manawa whakarite ki a tau iwi
- Ko te āhua nei e pā ana ki te wawata (tautia ana i runga i te mate me te hōhiperatanga mō te ischaemic mate manawa) he rereketanga te huarahi whakataunga mō te ischaemic mate manawa mō te Māori whakaritea ki a tau iwi

He aha te āhua o te mate pukupuku mō ngā tāne me ngā wāhine??

- Te rehitā prostate mate pukupuku tino raro iho mō ngā tāne Māori whakaritea ki ngā tau iwi
- Engari, ngā tāne Māori takirua te nui o ngā matenga e pa ana ki te prostate mate pukupuku i ngā tāne tau iwi
- Te mate pukupuku o te puku tata toru taima te nuinga mō ngā tāne Māori i runga i te rehitā prostate mate pukupuku tino raro iho mō ngā tāne Māori whakaritea ki ngā tau iwi
- Mō ngā wāhine Māori, mō te mate ūtaetae i runga i te rehitā tahi .toru (1.3) taima i te tau iwi
- Ngā wāhine Māori mō te wharetangata mate pukupuku i runga i te rehitā rua taima nui atu i ngā wāhine tau iwi
- Ngā wāhine Māori mō te mate a te wharowharo pukupuku wha taima nui atu i ngā wāhine tau iwi

He aha etahi o ngā tūtohu e pā ana ki ngā pōauautanga o te mate huka?

- Te nuinga tangata o te mate tākihi i te wā o te mate huka (15+ ngā tau) nui atu i te waru me te hāwhe taima i te Māori whakaritea ki ngā tau iwi
- Because the self-reported prevalence of diabetes is similar for Māori and non-Māori, the significantly higher rate of renal failure with concurrent diabetes would suggest that, among people with diabetes, Māori may be up to 8.8 times more likely than non-Māori to go on to develop renal failure (one of the complications of diabetes)

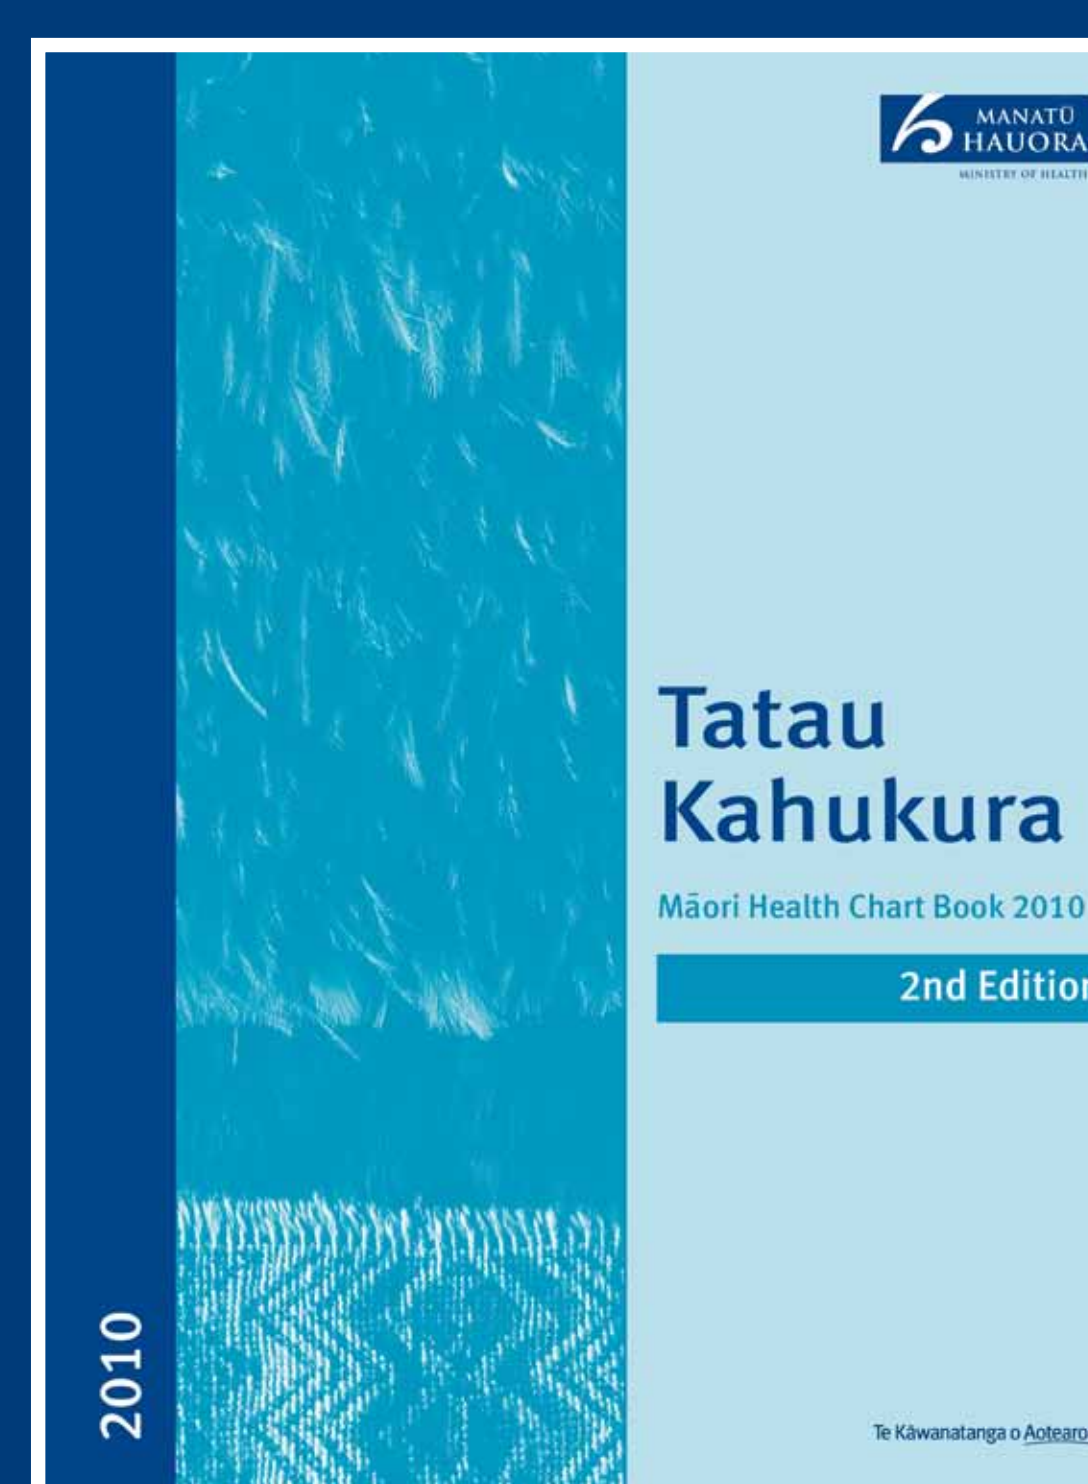

Kei hea ētahi atu kōrero?

He aha ngā pūtake nui o te matenga?

	Males	Females
Māori	Ischaemic heart disease	Ischaemic heart disease
	Lung cancer	Lung cancer
	Diabetes	Chronic obstructive pulmonary disease
	Suicide	Cerebrovascular disease
	Chronic obstructive pulmonary disease = Other forms of heart disease	Diabetes
non-Māori	Ischaemic heart disease	Ischaemic heart disease
	Suicide	Breast cancer
	Lung cancer	Cerebrovascular disease
	Cerebrovascular disease	Lung cancer
	Colorectal cancer	Colorectal cancer
