

# Experion Care NZ Limited - Wensley House

---

## Introduction

This report records the results of a Surveillance Audit of a provider of aged residential care services against the Health and Disability Services Standards (NZS8134.1:2008; NZS8134.2:2008 and NZS8134.3:2008).

The audit has been conducted by The DAA Group Limited, an auditing agency designated under section 32 of the Health and Disability Services (Safety) Act 2001, for submission to the Ministry of Health.

The abbreviations used in this report are the same as those specified in section 10 of the Health and Disability Services (General) Standards (NZS8134.0:2008).

You can view a full copy of the standards on the Ministry of Health's website by clicking [here](#).

The specifics of this audit included:

<b>Legal entity:</b>	Experion Care NZ Limited	
<b>Premises audited:</b>	Wensley House	
<b>Services audited:</b>	Rest home care (excluding dementia care)	
<b>Dates of audit:</b>	Start date: 19 October 2017	End date: 20 October 2017
<b>Proposed changes to current services (if any):</b>	None	
<b>Total beds occupied across all premises included in the audit on the first day of the audit:</b>	29	

# Executive summary of the audit

---

## Introduction

This section contains a summary of the auditors' findings for this audit. The information is grouped into the six outcome areas contained within the Health and Disability Services Standards:

- consumer rights
- organisational management
- continuum of service delivery (the provision of services)
- safe and appropriate environment
- restraint minimisation and safe practice
- infection prevention and control.

As well as auditors' written summary, indicators are included that highlight the provider's attainment against the standards in each of the outcome areas. The following table provides a key to how the indicators are arrived at.

### Key to the indicators

Indicator	Description	Definition
	Includes commendable elements above the required levels of performance	All standards applicable to this service fully attained with some standards exceeded
	No short falls	Standards applicable to this service fully attained
	Some minor shortfalls but no major deficiencies and required levels of performance seem achievable without extensive extra activity	Some standards applicable to this service partially attained and of low risk

Indicator	Description	Definition
Yellow	A number of shortfalls that require specific action to address	Some standards applicable to this service partially attained and of medium or high risk and/or unattained and of low risk
Red	Major shortfalls, significant action is needed to achieve the required levels of performance	Some standards applicable to this service unattained and of moderate or high risk

## General overview of the audit

Experion Care NZ Ltd – Wensley House provides rest home care for up to 45 residents. The service is operated by a company and managed by a general manager and registered nurses. Residents and families spoke positively about the care provided.

This surveillance audit was conducted against the Health and Disability Services Standards and the service’s contract with the district health board. The audit process included review of policies and procedures, review of residents’ and staff files, observations and interviews with residents, family members, management, staff, and a general practitioner.

This audit has resulted in the identification of areas requiring improvements relating to staff training, interRAI assessments and laundry and shower/toilet surfaces.

Improvements have been made to the role of manager, chemical and fire training, temperature recordings and chipped paint, addressing those areas requiring improvement from the previous audit.

## Consumer rights

Includes 13 standards that support an outcome where consumers receive safe services of an appropriate standard that comply with consumer rights legislation. Services are provided in a manner that is respectful of consumer rights, facilities, informed choice, minimises harm and acknowledges cultural and individual values and beliefs.		Standards applicable to this service fully attained.
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	------------------------------------------------------

Open communication between staff, residents and families is promoted and was confirmed to be effective. There is access to interpreting services if required. Staff provide residents and families with the information they need to make informed choices and give consent.

A complaints register is maintained with complaints resolved promptly and effectively.

## Organisational management

Includes 9 standards that support an outcome where consumers receive services that comply with legislation and are managed in a safe, efficient and effective manner.		Some standards applicable to this service partially attained and of medium or high risk and/or unattained and of low risk.
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	----------------------------------------------------------------------------------------------------------------------------

Business and quality and risk management plans include the scope, direction, goals, values and mission statement of the organisation. Monitoring of the services provided to the governing body is regular and effective. An experienced and suitably qualified person manages the facility.

The quality and risk management system includes collection and analysis of quality improvement data, identifies trends and leads to improvements. Staff are involved, and feedback is sought from residents and families. Adverse events are documented with corrective actions implemented. Actual and potential risks, including health and safety risks, are identified and mitigated. Policies and procedures support service delivery and were current and reviewed regularly.

The appointment, orientation and management of staff is based on current good practice. Regular individual performance reviews are occurring. Staffing levels and skill mix meet the changing needs of residents.

## Continuum of service delivery

<p>Includes 13 standards that support an outcome where consumers participate in and receive timely assessment, followed by services that are planned, coordinated, and delivered in a timely and appropriate manner, consistent with current legislation.</p>		<p>Some standards applicable to this service partially attained and of low risk.</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--------------------------------------------------------------------------------------

The multidisciplinary team, including a registered nurse and general practitioner, assess residents' needs on admission. Care plans are individualised, based on a comprehensive range of information and accommodate any new problems that might arise. Files reviewed demonstrated that the care provided and needs of residents were evaluated on a regular basis. Residents are referred or transferred to other health services as required.

The planned activity programme provides residents with a variety of individual and group activities and maintains their links with the community.

Medicines are safely managed and administered by staff who are competent to do so.

The food service meets the nutritional needs of the residents with special needs catered for. Food is safely managed. Residents verified satisfaction with meals.

## Safe and appropriate environment

Includes 8 standards that support an outcome where services are provided in a clean, safe environment that is appropriate to the age/needs of the consumer, ensure physical privacy is maintained, has adequate space and amenities to facilitate independence, is in a setting appropriate to the consumer group and meets the needs of people with disabilities.		Some standards applicable to this service partially attained and of low risk.
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	-------------------------------------------------------------------------------

There is a current building warrant of fitness.

## Restraint minimisation and safe practice

Includes 3 standards that support outcomes where consumers receive and experience services in the least restrictive and safe manner through restraint minimisation.		Standards applicable to this service fully attained.
---------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	------------------------------------------------------

The organisation has implemented policies and procedures that support the minimisation of restraint. No enablers and no restraints were in use at the time of audit.

## Infection prevention and control

<p>Includes 6 standards that support an outcome which minimises the risk of infection to consumers, service providers and visitors. Infection control policies and procedures are practical, safe and appropriate for the type of service provided and reflect current accepted good practice and legislative requirements. The organisation provides relevant education on infection control to all service providers and consumers. Surveillance for infection is carried out as specified in the infection control programme.</p>		<p>Standards applicable to this service fully attained.</p>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	-------------------------------------------------------------

Aged care specific infection surveillance is undertaken, and results reported through all levels of the organisation. Follow-up action is taken as and when required.

## Summary of attainment

The following table summarises the number of standards and criteria audited and the ratings they were awarded.

Attainment Rating	Continuous Improvement (CI)	Fully Attained (FA)	Partially Attained Negligible Risk (PA Negligible)	Partially Attained Low Risk (PA Low)	Partially Attained Moderate Risk (PA Moderate)	Partially Attained High Risk (PA High)	Partially Attained Critical Risk (PA Critical)
Standards	0	13	0	2	1	0	0
Criteria	0	36	0	2	1	0	0

Attainment Rating	Unattained Negligible Risk (UA Negligible)	Unattained Low Risk (UA Low)	Unattained Moderate Risk (UA Moderate)	Unattained High Risk (UA High)	Unattained Critical Risk (UA Critical)
Standards	0	0	0	0	0
Criteria	0	0	0	0	0

# Attainment against the Health and Disability Services Standards

The following table contains the results of all the standards assessed by the auditors at this audit. Depending on the services they provide, not all standards are relevant to all providers and not all standards are assessed at every audit.

Please note that Standard 1.3.3: Service Provision Requirements has been removed from this report, as it includes information specific to the healthcare of individual residents. Any corrective actions required relating to this standard, as a result of this audit, are retained and displayed in the next section.

For more information on the standards, please click [here](#).

For more information on the different types of audits and what they cover please click [here](#).

Standard with desired outcome	Attainment Rating	Audit Evidence
<p>Standard 1.1.13: Complaints Management</p> <p>The right of the consumer to make a complaint is understood, respected, and upheld.</p>	FA	<p>The complaints policy and associated forms meet the requirements of Right 10 of the Code. Information on the complaint process is provided to residents and families on admission and those interviewed knew how to do so.</p> <p>The complaints register reviewed showed that one complaint has been received since the new ownership and that actions taken, through to an agreed resolution, are documented and completed within the timeframes. Action plans showed that any required follow up and improvements have been made where possible. The general manager (GM) is responsible for complaints management and follow up. All staff interviewed confirmed a sound understanding of the complaint process and what actions are required. There have been no complaints received from external sources since the previous audit.</p>
<p>Standard 1.1.9: Communication</p> <p>Service providers communicate effectively with consumers and provide an environment conducive to</p>	FA	<p>Residents and family members stated they were kept well informed about any changes to their/their relative's status, were advised in a timely manner about any incidents or accidents and outcomes of regular and any urgent medical reviews. This was supported in residents' records reviewed. Staff understood the principles of open disclosure, which is supported by policies and procedures that meet the requirements of the Code.</p> <p>Staff knew how to access interpreter services, although reported this was rarely required due to all</p>

effective communication.		residents speaking English.
<p>Standard 1.2.1: Governance</p> <p>The governing body of the organisation ensures services are planned, coordinated, and appropriate to the needs of consumers.</p>	FA	<p>The strategic and business plans, which are reviewed annually, outline the purpose, values, scope, direction and goals of the organisation. The documents described annual and longer-term objectives and the associated operational plans. A sample of monthly reports to the owner showed adequate information to monitor performance is reported including bed occupancy, staffing, emerging risks and issues.</p> <p>The service is managed by a GM who holds relevant qualifications, is a registered nurse (RN) and has been in the role since July. Prior to this role, she has held many senior management roles in the health sector, addressing a previous required improvement. Responsibilities and accountabilities are defined in a job description and individual employment agreement. The GM confirmed knowledge of the sector, regulatory and reporting requirements and maintains currency through relevant training.</p> <p>The service holds contracts with NMDHB, MoH for respite and rest home care. Twenty-nine residents were receiving services under the rest home contract at the time of audit. There were no respite residents. Four residents were residing in the apartments within the facility.</p>
<p>Standard 1.2.3: Quality And Risk Management Systems</p> <p>The organisation has an established, documented, and maintained quality and risk management system that reflects continuous quality improvement principles.</p>	FA	<p>The organisation has a planned quality and risk system that reflects the principles of continuous quality improvement. This includes management of incidents and complaints, audit activities, a regular patient satisfaction survey, monitoring of outcomes, and clinical incidents including infections.</p> <p>Meeting minutes reviewed confirmed regular review and analysis of quality indicators and that related information is reported and discussed at the quality and risk team meetings and staff meetings. Staff reported their involvement in quality and risk management activities through audit activities and health and safety reporting. Relevant corrective actions are developed and implemented to address any shortfalls. There has not been a resident survey completed since the facility was purchased.</p> <p>Policies reviewed cover all necessary aspects of the service and contractual requirements, including</p>

		<p>reference to the interRAI Long Term Care Facility (LTCF) assessment tool and process. Policies are based on best practice and were current. The document control system ensures a systematic and regular review process, referencing of relevant sources, approval, distribution and removal of obsolete documents.</p> <p>The GM described the processes for the identification, monitoring, review and reporting of risks and development of mitigation strategies. The manager is familiar with the Health and Safety at Work Act (2015) and has implemented requirements.</p>
<p>Standard 1.2.4: Adverse Event Reporting</p> <p>All adverse, unplanned, or untoward events are systematically recorded by the service and reported to affected consumers and where appropriate their family/whānau of choice in an open manner.</p>	FA	<p>Staff document adverse and near miss events on an accident/incident form. A sample of incidents forms reviewed showed these were fully completed, incidents were investigated, action plans developed and actions followed-up in a timely manner. Adverse event data is collated, analysed and reported to the owners.</p> <p>The GM described essential notification reporting requirements, including for pressure injuries. They advised there has been one notifications of significant events made to the Ministry of Health since the previous audit.</p>
<p>Standard 1.2.7: Human Resource Management</p> <p>Human resource management processes are conducted in accordance with good employment practice and meet the requirements of legislation.</p>	PA Moderate	<p>Human resources management policies and processes are based on good employment practice and relevant legislation. The recruitment process includes referee checks, police vetting and validation of qualifications and practising certificates (APCs), where required. A sample of staff records reviewed confirmed the organisation's policies are being consistently implemented and records are maintained.</p> <p>Staff orientation includes all necessary components relevant to the role. Staff reported that the orientation process prepared them well for their role. Staff records reviewed show documentation of completed orientation and a performance review after a three-month period.</p> <p>Staff continuing education is not yet in place, including mandatory training requirements, as identified in the previous audit. Care staff have either completed or commenced a New Zealand Qualification Authority education programme to meet the requirements of the provider's agreement with the DHB. There are sufficient trained and competent registered nurses who are maintaining their annual competency requirements to undertake interRAI assessments. Records reviewed demonstrated completion of annual performance appraisals.</p>

<p>Standard 1.2.8: Service Provider Availability</p> <p>Consumers receive timely, appropriate, and safe service from suitably qualified/skilled and/or experienced service providers.</p>	FA	<p>There is a documented and implemented process for determining staffing levels and skill mixes to provide safe service delivery, 24 hours a day, seven days a week. The facility adjusts staffing levels to meet the changing needs of residents. An afterhours on call roster is in place, with staff reporting that good access to advice is available when needed. Care staff reported there were adequate staff available to complete the work allocated to them. Residents and family interviewed supported this. Observations and review of a four-week roster cycle confirmed adequate staff cover has been provided, with staff replaced in any unplanned absence.</p>
<p>Standard 1.3.12: Medicine Management</p> <p>Consumers receive medicines in a safe and timely manner that complies with current legislative requirements and safe practice guidelines.</p>	FA	<p>The medication management policy is current and identifies all aspects of medicine management in line with the Medicines Care Guide for Residential Aged Care.</p> <p>A safe system for medicine management was observed on the day of audit. The staff observed demonstrated good knowledge and had a clear understanding of their roles and responsibilities related to each stage of medicine management. All staff who administer medicines are competent to perform the function they manage.</p> <p>Medications are supplied to the facility in a pre-packaged format from a contracted pharmacy. The RN checks medications against the prescription. All medications sighted were within current use by dates. Clinical pharmacist input is provided monthly and on request.</p> <p>Controlled drugs are stored securely in accordance with requirements and checked by two staff for accuracy when administering. The controlled drug register provided evidence of weekly and six-monthly stock checks and accurate entries.</p> <p>The records of temperatures for the medicine fridge and the medication room reviewed were within the recommended range.</p> <p>Good prescribing practices noted included the prescriber's signature and date recorded on the commencement and discontinuation of medicines and all requirements for pro re nata (PRN) medicines met. The required three-monthly GP review is consistently recorded on the medicine chart. Standing orders are used, are current and comply with guidelines.</p> <p>There is an implemented process for comprehensive analysis of any medication errors.</p>
<p>Standard 1.3.13: Nutrition, Safe Food, And Fluid</p>	FA	<p>The food service is provided on site by a qualified cook and kitchen team, and is in line with recognised nutritional guidelines for older people. The menu follows summer and winter patterns and has been</p>

<p><b>Management</b></p> <p>A consumer's individual food, fluids and nutritional needs are met where this service is a component of service delivery.</p>		<p>reviewed by a qualified dietitian within the last two years. Recommendations made at that time have been implemented.</p> <p>All aspects of food procurement, production, preparation, storage, transportation, delivery and disposal comply with current legislation and guidelines. The service operates with an approved food safety plan and registration issued by Nelson Marlborough Council and valid through to October 2018. Food temperatures, including for high risk items, are monitored appropriately and recorded as part of the plan. The food services manager has undertaken a safe food handling qualification, with kitchen assistants completing relevant food handling training.</p> <p>A nutritional assessment is undertaken for each resident on admission to the facility and a dietary profile developed. The personal food preferences, any special diets and modified texture requirements are made known to kitchen staff and accommodated in the daily meal plan. Special equipment, to meet resident's nutritional needs, is available.</p> <p>Evidence of resident satisfaction with meals is verified by resident and family interviews, satisfaction surveys and resident meeting minutes. Residents were seen to be given sufficient time to eat their meal in an unhurried fashion and those requiring assistance had this provided.</p>
<p><b>Standard 1.3.6: Service Delivery/Interventions</b></p> <p>Consumers receive adequate and appropriate services in order to meet their assessed needs and desired outcomes.</p>	FA	<p>Documentation, observations and interviews verified the provision of care provided to residents was consistent with their needs, goals and the plan of care. The attention to meeting a diverse range of resident's individualised needs was evident in all areas of service provision. The GP interviewed, verified that medical input is sought in a timely manner, that medical orders are followed, and care is of a high standard. Care staff confirmed that care was provided as outlined in the documentation. A range of equipment and resources was available, suited to the level of care provided and in accordance with the residents' needs.</p>
<p><b>Standard 1.3.7: Planned Activities</b></p> <p>Where specified as part of the service delivery plan for a consumer, activity requirements are appropriate to their needs, age, culture, and the setting of the service.</p>	FA	<p>The activities programme is provided by one trained diversional therapist holding the national Certificate in Diversional Therapy, and an assistant.</p> <p>A social assessment and history is undertaken on admission to ascertain residents' needs, interests, abilities and social requirements. Activities assessments are regularly reviewed to help formulate an activities programme that is meaningful to the residents. The resident's activity needs are evaluated monthly and as part of the formal six-monthly care plan review.</p> <p>Activities reflect residents' goals, ordinary patterns of life and include normal community activities.</p>

		Individual, group activities and regular events are offered. Residents and families are involved in evaluating and improving the programme through residents' meetings. Residents interviewed confirmed they find the programme varied, interesting and 'great'.
Standard 1.3.8: Evaluation Consumers' service delivery plans are evaluated in a comprehensive and timely manner.	FA	Resident care is evaluated on each shift and reported in the progress notes. If any change is noted, it is reported to the RN.  Formal care plan evaluations, occur every six months in conjunction with the six-monthly interRAI reassessment, or as residents' needs change. Residents with overdue interRAI assessments, do have care plans reviewed in the interim. Where progress is different from expected, the service responds by initiating changes to the plan of care. Examples of short term care plans being consistently reviewed and progress evaluated as clinically indicated were noted for infections, wounds and mobility. When necessary, and for unresolved problems, long term care plans are added to and updated. Residents and families interviewed provided examples of involvement in evaluation of progress and any resulting changes.
Standard 1.4.2: Facility Specifications Consumers are provided with an appropriate, accessible physical environment and facilities that are fit for their purpose.	PA Low	A current building warrant of fitness (expiry date 01 May 2018) is publicly displayed. There is evidence that two previously required improvements have now been addressed. Hot water temperature in cylinders are now being recorded and are at recommended temperatures. The passageway walls have been repaired. However, three shower/toilet rooms and the laundry wall surfaces still require repair.
Standard 3.5: Surveillance Surveillance for infection is carried out in accordance with agreed objectives, priorities, and methods that have been specified in the infection control programme.	FA	Surveillance is appropriate to that recommended for long term care facilities and includes infections of the urinary tract, soft tissue, fungal, eye, gastro-intestinal, the upper and lower respiratory tract and scabies. The IPC coordinator reviews all reported infections and these are documented. New infections and any required management plan are discussed at handover, to ensure early intervention occurs.  Monthly surveillance data is collated and analysed to identify any trends, possible causative factors and required actions. Results of the surveillance programme are shared with staff via regular staff meetings and at staff handovers. Graphs are produced that identify trends for the current year, and comparisons against previous years and this is reported to the general manager, quality committee and the owners.
Standard 2.1.1: Restraint	FA	Policies and procedures meet the requirements of the restraint minimisation and safe practice standards

<p>minimisation</p> <p>Services demonstrate that the use of restraint is actively minimised.</p>		<p>and provide guidance on the safe use of both restraints and enablers. The restraint coordinator provides support and oversight for enabler and restraint management in the facility and demonstrated a sound understanding of the organisation's policies, procedures and practice and her/his role and responsibilities.</p> <p>On the day of audit, no residents were using restraints and no residents were using enablers. There is an understanding that enablers, when used, are the least restrictive and used voluntarily at the resident's request.</p>
--------------------------------------------------------------------------------------------------	--	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## Specific results for criterion where corrective actions are required

Where a standard is rated partially attained (PA) or unattained (UA) specific corrective actions are recorded under the relevant criteria for the standard. The following table contains the criterion where corrective actions have been recorded.

Criterion can be linked to the relevant standard by looking at the code. For example, a Criterion 1.1.1.1: Service providers demonstrate knowledge and understanding of consumer rights and obligations, and incorporate them as part of their everyday practice relates to Standard 1.1.1: Consumer Rights During Service Delivery in Outcome 1.1: Consumer Rights.

If there is a message “no data to display” instead of a table, then no corrective actions were required as a result of this audit.

Criterion with desired outcome	Attainment Rating	Audit Evidence	Audit Finding	Corrective action required and timeframe for completion (days)
<p>Criterion 1.2.7.5</p> <p>A system to identify, plan, facilitate, and record ongoing education for service providers to provide safe and effective services to consumers.</p>	<p>PA</p> <p>Moderate</p>	<p>Only one staff file reviewed showed 1st aid training has been completed in the past two years. The records for first aid training were not available on the days of audit.</p> <p>The system for recording staff training is not complete, nor is it easy to identify those staff who have the required qualifications, or require training. During interview, the GM confirmed there has been difficulty establishing the training that staff have completed. She has planned a compulsory core skills study day in November 2017. Chemical use training and manual handling has been completed by the appropriate staff.</p> <p>Records relating to staff competency in specific tasks, for example, percutaneous endoscopic gastrostomy (PEG) feeding, were not available on the days of the audit. There is one resident who was being fed by a PEG tube at the time of</p>	<p>A system to plan, facilitate, identify and record training is not in place. There are gaps in the training records reviewed including; first aid, PEG feeding, infection control, fire drill and RN Code of Conduct training.</p>	<p>A system to identify, plan, facilitate and record required training is developed.</p> <p>90 days</p>

		<p>audit. The RN interviewed reported she has provided training, but this has not been documented. Infection control and fire drill training still needs to be identified as completed for all staff.</p> <p>Two RN files reviewed do not include the required Nursing Council of New Zealand Code of Conduct training.</p>		
<p>Criterion 1.3.3.3</p> <p>Each stage of service provision (assessment, planning, provision, evaluation, review, and exit) is provided within time frames that safely meet the needs of the consumer.</p>	PA Low	<p>Registered nurses are responsible for all assessment, care planning and evaluation. Reviews are required to be completed six monthly using interRAI, however there are at least seven that are overdue. The GM has allocated the RN's time and space to complete these.</p>	<p>Not all interRAI reviews are completed within the required six-month timeframe.</p>	<p>InterRAI reviews are to be completed within required timeframes.</p> <p>90 days</p>
<p>Criterion 1.4.2.1</p> <p>All buildings, plant, and equipment comply with legislation.</p>	PA Low	<p>Three toilets/shower rooms have surfaces which have been chipped or broken and are showing the walls and paint work is not in good order. The laundry walls are chipped making it difficult for cleaning.</p>	<p>The integrity of the laundry and toilet/shower walls are compromised making it difficult for effective cleaning.</p>	<p>The integrity of all surfaces is intact to allow for cleaning.</p> <p>180 days</p>

## Specific results for criterion where a continuous improvement has been recorded

---

As well as whole standards, individual criterion within a standard can also be rated as having a continuous improvement. A continuous improvement means that the provider can demonstrate achievement beyond the level required for full attainment. The following table contains the criterion where the provider has been rated as having made corrective actions have been recorded.

As above, criterion can be linked to the relevant standard by looking at the code. For example, a Criterion 1.1.1.1 relates to Standard 1.1.1: Consumer Rights During Service Delivery in Outcome 1.1: Consumer Rights

If, instead of a table, there is a message “no data to display” then no continuous improvements were recorded as part of this of this audit.

No data to display
