Dear

Response to your request for official information

Thank you for your request under the Official Information Act 1982 (the Act) on 19 November 2020 for information relating to medical cannabis products. I shall quote and respond to each part of your request below:

1. The number of patient-specific approvals to prescribe medicinal cannabis products (monthly, from January 2017 onwards), broken down by (1) pharmaceutical grade with consent (2) pharmaceutical-grade without consent (3) non-pharmaceutical grade without consent. Also, the number of new approvals granted each month.

Please see the attached excel document which contains all applications, anonymised, under Regulation 22 of the Misuse of Drugs Regulations 1977, to prescribe a medicinal cannabis product. The requested numbers can be extracted from this data set.

Questions regarding data interpretation:

a) My understanding is that all patient-specific approvals for pharma-grade products with consent relate to Sativex. Could you please confirm?

That is correct.

b) What categories of products fall under approvals for "non-pharmaceutical grade without consent"? My understanding is that CBD only products don't require patient-specific approval, therefore all patient-specific approvals for non-pharma grade products with consent would involve medicinal cannabis products with THC>2%. Could you please confirm? I would appreciate examples of product brands that would fall under this category.

Any product is considered to be non-pharmaceutical grade if it is not manufactured under GMP and does not have consent for distribution under the Medicines Act 1981. Except for Sativex, all medicinal cannabis products in the applications have been considered non-pharmaceutical grade without consent.

Please note that from April 2020, medicinal cannabis products which have been verified as meeting the minimum quality standard, and Sativex, do not require Ministerial approval to prescribe. Therefore, all products in the applications are classified as unverified medicinal cannabis product, instead of non-pharmaceutical grade without consent.

CBD products are prescription medicines and do not require Ministerial approval under Regulation 22 of the Misuse of Drugs Regulations 1977. The definition of a CBD product is given in Section 2A of the Misuse of Drugs Act 1975. Please note a CBD product is defined where the total amount of specified substances does not exceed 2% of the total amount of CBD and specified substances.

This is not the same as the product containing less than 2% THC. A specified substance is a substance that:

(a) naturally occurs in cannabis; and

(b) is—

(i) a tetrahydrocannabinol; or

(ii) an isomer, ester, or ether of a tetrahydrocannabinol; or

(iii) an ester or ether of an isomer of a tetrahydrocannabinol; or

(iv) a salt of any substance described in subparagraphs (i) to (iii); or

(v) a substance that has a structure substantially similar to that of any substance described in subparagraphs (i) to (iv); and

(c) for substances listed in paragraph (b)(ii) to (v), is capable of inducing more than a minor psychoactive effect, by any means, in a person.

Your request for examples of products is withheld under section 9(2)(b)(ii) to protect the commercial position of the person who supplied it.

2. The number of prescribers who sought approval to prescribe medicinal cannabis products (monthly, from 2017) and corresponding number of patients their sought approval for. Also, the number of new prescribers per month.

The requested numbers can be extracted from the attached dataset.

3. What conditions or symptoms were the above approvals granted for? If this data is not available, does MOH (or any other government agency) collect any data on conditions for which medicinal cannabis products are prescribed / procured / sold in NZ?

The requested information can be extracted from the attached dataset.

4. The number of packs of CBD products sold or supplied (as notified under s 29 Medicines Act) from January 2017 onwards, monthly. And the number of packs of other categories of medicinal cannabis products (i.e. >2% THC) sold or supplied in NZ monthly from January 2017 (subject to data availability)

This part of your request for data up until December 2019 is refused under section 18(d) of the Act, as this is soon to be publicly available. However, please see attached Appendix One which contains the data from January 2020 to present. As returns are sent to Medsafe post supply, not all supply may be included in the database from which the numbers were extracted at the time of this response.

I trust this information fulfils your request. Under section 28(3) of the Act you have the right to ask the Ombudsman to review any decisions made under this request. The Ombudsman may be contacted by email at: <u>info@ombudsman.parliament.nz</u> or by calling 0800 802 602.

Please note that this response, with your personal details removed, may be published on the Ministry website at: <u>www.health.govt.nz/about-ministry/information-releases/responses-official-information-act-requests</u>.

Yours sincerely

Chris James Licensing Authority Medicinal Cannabis Agency

APPENDIX ONE

51,0987 Number of packs of products, supplied under section 29 of the Medicines Act 1981 as reported to Medsafe in 2020

Number of packs of products containing cannabidiol

Month	Jan	Feb	Mar	Apr	Мау	Jun	Jul	Aug	Sept	Oct	Nov	Dec
No. of Packs	1002	1355	1644	1175	1325	1914	1873	1766	2333	1323	250	

Number of packs of products containing tetrahydrocannabinol

Month	Jan	Feb	Mar	Apr	Мау	Jun	Jul	Aug	Sept	Oct	Nov	Dec
No. of Packs	9		9		10	25	18		24	34		

Number of packs of products containing both tetrahydrocannabinol and cannabidiol
