Response to your request for official information

Thank you for your request under the Official Information Act 1982 (the Act) to the Ministry of Health (the Ministry) on for information regarding modelling of COVID-19 community cases. Each part of your request is responded to below.

The original daily occupancy reports identified in WPQ 1914 (2022) from 1 Feb 2022 to the present

The daily situational reports you have requested are attached to this letter as Documents 1-24 and are itemised below in Appendix 1. The documents are released to you in full.

Any reports, briefings, memos, presentations, aide memoirs, emails or other communications modelling, estimating or describing the number of Covid community cases per day or other time metric that would be required to consume, overwhelm or fill up all available hospital beds

This part of your request is refused under section 18(e) of the Act, as the Ministry has not commissioned modelling for an estimate of when available ward beds would be exceeded. The Ministry is regularly reviewing modelling for COVID-19, which is undertaken primarily by the Te Pūnaha Matatini (TPM) COVID-19 modelling group. TPM models the number of cases we could potentially see, based on epidemiological assumptions, international experience, current cases and hospitalisation in New Zealand and what the Ministry has seen in the outbreak so far.

However, those case estimates are not based on available hospital capacity, as available capacity in hospitals is constantly changing. This ensures the Ministry keeps planning for a wide range of different scenarios. The case estimates in this instance (and thus resulting in estimated hospitalisations) are then used by the Ministry and the district health boards (DHBs) to inform operational planning. A preliminary assessment of the potential impact of Omicron in Aotearoa New Zealand is available at:

www.covid19modelling.ac.nz/a-preliminary-assessment-of-the-potential-impact-of-the-omicron-variant/

DHBs are working to best balance the demands of health services, related to both COVID-19 and other health needs, such as planned care. However, in an escalated surge situation, there is opportunity to prioritise clinical delivery based on need, and defer non-urgent, deferrable care that may otherwise draw on health system resources. Decisions on prioritising clinical resources and treatment between COVID-19 patients and planned care and other patients is a key role for the health system.

There are processes in place to redeploy staff to areas of greatest need as necessary. This may also include non-clinical staff providing support in service areas, as has occurred historically during strikes and crisis situations.

Under section 28(3) of the Act, you have the right to ask the Ombudsman to review any decisions made under this request. The Ombudsman may be contacted by email at: info@ombudsman.parliament.nz or by calling 0800 802 602.

Please note that this response, with your personal details removed, may be published on the Ministry website at: www.health.govt.nz/about-ministry/information-releases/responses-official-information-act-requests.

Nāku noa, nā

A handwritten signature in black ink, appearing to read 'Jess Smaling', written in a cursive style.

Number of hospitalised COVID-19 cases is taken from the daily hospital occupancy reporting form completed by DHBs each morning. Numbers may differ from hospitalised cases at 0900 in the Covid-19 Situation Report (issued daily at 1300) due to timing and/or data source differences.

Occupancy figures are as reported at 0830 Monday to Friday mornings (situation report date) for the previous day at 2359. Prior to 11/09/21, occupancy figures were submitted every day of the week.

*Note – As of 1 Nov, ADHB has stopped including Starship NICU, so the national total for ICU/HDU will now sit around 285 instead of 325.

**Note – Canterbury DHB comprises Christchurch Hospital only. It excludes Ashburton and Burwood hospitals.

Time series data for the Christmas shutdown period (23 December 2021 - 7 January 2022) includes 30 December 2021 and 6 January 2022 only.

Number of hospitalised COVID-19 cases is taken from the daily hospital occupancy reporting form completed by DHBs each morning. Numbers may differ from hospitalised cases at 0900 in the Covid-19 Situation Report (issued daily at 1300) due to timing and/or data source differences.

Occupancy figures are as reported at 0830 Monday to Friday mornings (situation report date) for the previous day at 2359. Prior to 11/09/21, occupancy figures were submitted every day of the week.

*Note – As of 1 Nov, ADHB has stopped including Starship NICU, so the national total for ICU/HDU will now sit around 285 instead of 325.

**Note – Canterbury DHB comprises Christchurch Hospital only. It excludes Ashburton and Burwood hospitals.

Time series data for the Christmas shutdown period (23 December 2021 - 7 January 2022) includes 30 December 2021 and 6 January 2022 only.

National Total	296	197	66.6%	424	65	15.3%	7,556	6,158	81.5%

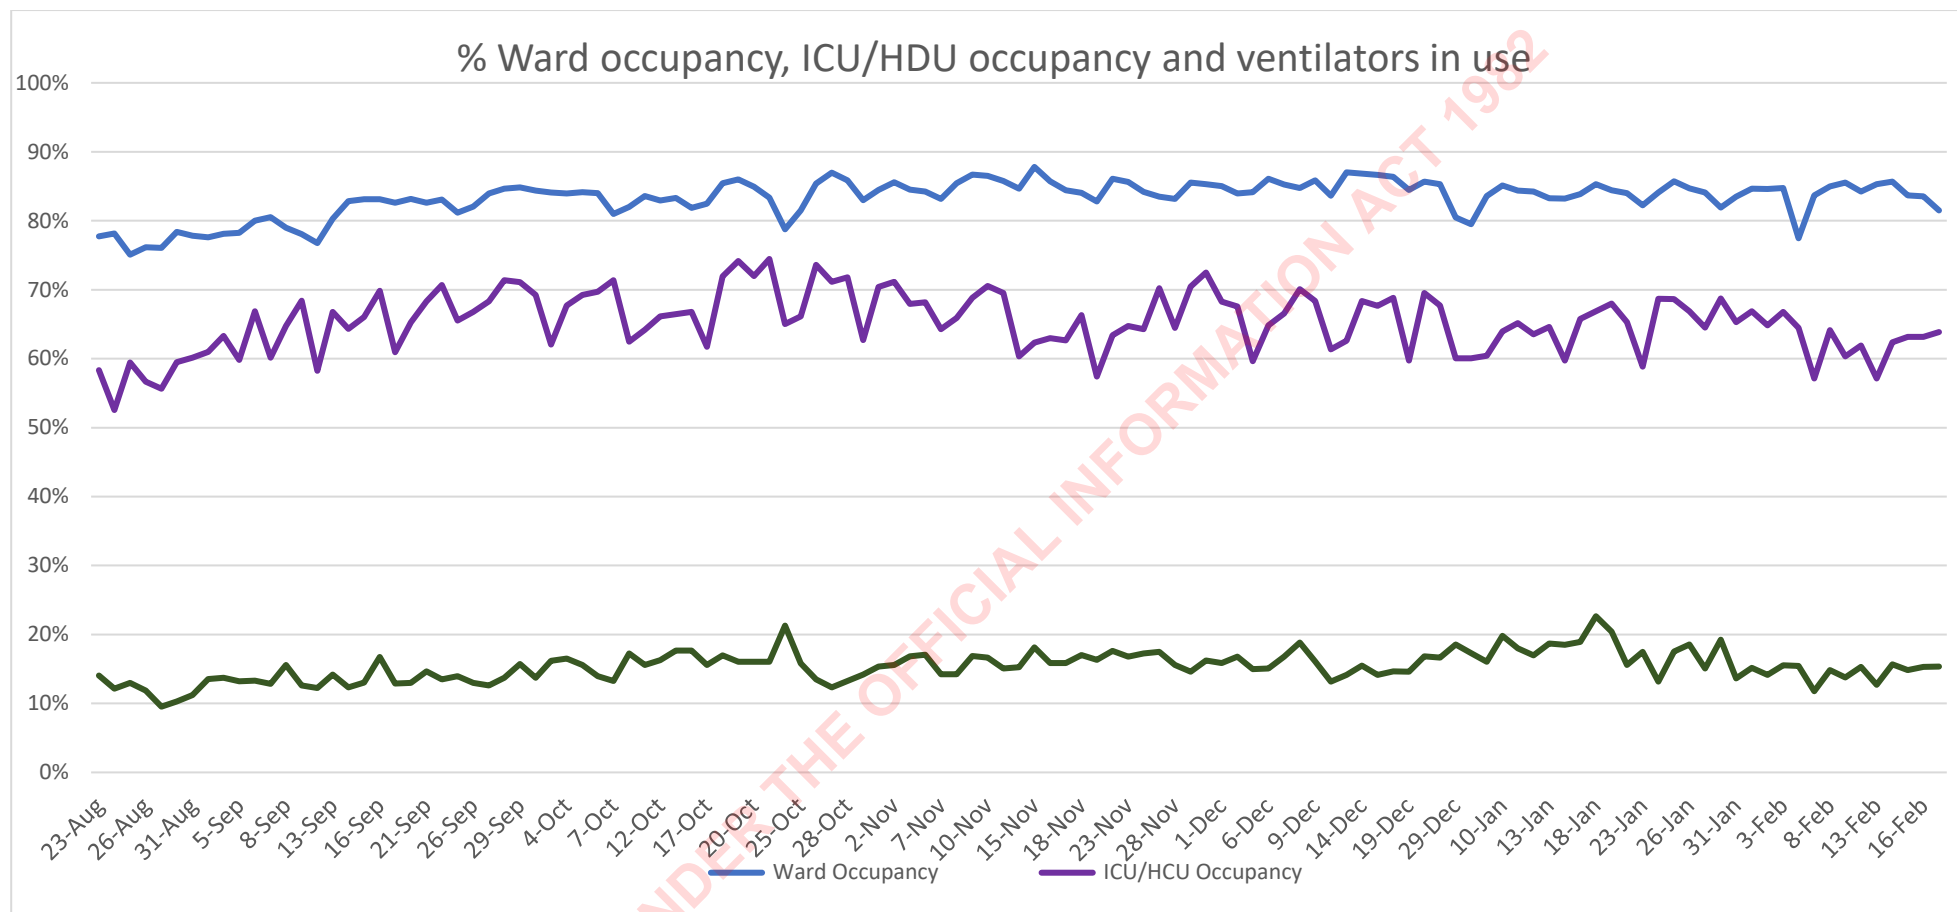

Number of hospitalised COVID-19 cases is taken from the daily hospital occupancy reporting form completed by DHBs each morning. Numbers may differ from hospitalised cases at 0900 in the Covid-19 Situation Report (issued daily at 1300) due to timing and/or data source differences.

Occupancy figures are as reported at 0830 Monday to Friday mornings (situation report date) for the previous day at 2359. Prior to 11/09/21, occupancy figures were submitted every day of the week.

*Note – As of 1 Nov, ADHB has stopped including Starship NICU, so the national total for ICU/HDU will now sit around 285 instead of 325.

**Note – Canterbury DHB comprises Christchurch Hospital only. It excludes Ashburton and Burwood hospitals.

Time series data for the Christmas shutdown period (23 December 2021 - 7 January 2022) includes 30 December 2021 and 6 January 2022 only.

Number of hospitalised COVID-19 cases is taken from the daily hospital occupancy reporting form completed by DHBs each morning. Numbers may differ from hospitalised cases at 0900 in the Covid-19 Situation Report (issued daily at 1300) due to timing and/or data source differences.

Occupancy figures are as reported at 0830 Monday to Friday mornings (situation report date) for the previous day at 2359. Prior to 11/09/21, occupancy figures were submitted every day of the week.

NR - Not Reported as at 10:00am 02/03/2022

*Note – As of 1 Nov, ADHB has stopped including Starship NICU, so the national total for ICU/HDU will now sit around 285 instead of 325.

**Note – Canterbury DHB comprises Christchurch Hospital only. It excludes Ashburton and Burwood hospitals.

Time series data for the Christmas shutdown period (23 December 2021 - 7 January 2022) includes 30 December 2021 and 6 January 2022 only.
