

Executive Summary 28

NATIONAL MEASLES OUTBREAK 2019

Issued: 1100 hrs, 9 OCTOBER 2019

IN CONFIDENCE – NOT FOR FURTHER DISTRIBUTION

New information in red text

All information is current as of 0830hrs 9 October 2019

Situation

1. From 1 January 2019 to 9 October 2019 there have been 1731 confirmed cases of measles notified across New Zealand (as at 0830hrs 9 October) based on ESR reporting. This is an increase of 11 cases nationally since Executive Summary 27 provided on Tuesday 8 October 2019.
2. Over the last two weeks (25 September to 9 October) there have been 162 new cases in the Auckland region. Within the Auckland region, most cases have been reported in Counties Manukau District Health Board (CMDHB) (*Appendix 1*), with 90 new cases reported in the last two weeks. Nationally, 227 new cases have been reported over the same period, including the Auckland cases.
3. Recent cases outside of the Auckland region have been linked to the Auckland outbreak, and are mostly limited to single cases and small clusters. There is a localised outbreak in Queenstown which originated from an Auckland link.
4. The Ministry is closely monitoring the DHBs with the most cases (Northland, Auckland Metro, Waikato, Bay of Plenty, Lakes and Southern).
5. The DHBs and the Ministry continue to work closely to actively manage MMR vaccine distribution.

Next Report

The next report will be a Situation Report at 1500 hrs on Wednesday 9 October 2019.

Prepared by: Sarah Emerson, Intelligence

Approved by: Kath Blair, Response Manager

Appendix 1. Confirmed cases per DHB in New Zealand

DHB	Cumulative Cases - 1 January 2019 to 9 October 2019	Cases in the last 14 days (24 September to 9 October)	Cases since last report	Status*
