

Summary for 6th meeting (11 August 2009)

The Compliance Panel (CP) accepted with minor edits the re-determination of complaint 07-2008-04a about an evening for health workers organised by an infant formula marketer. The CP also finalised their decision on complaint 07-2008-04b about a presentation given by a health worker at an evening for health workers organised by an infant formula marketer.

The complaint process was also discussed. The majority of the CP recommended that when complaints are to be referred to the CP, all affected parties are invited to send any additional information for the CP's consideration. The CP, when making its decision, will consider either the Infant Nutrition Council or Health Worker Code in its entirety. This recommendation is to reduce the risk of an appeal being lodged that is accompanied by new information not considered by the CP when making their decision. The CP secretariat would write to the Infant Nutrition Council for their members response.
