

Application for Authorisation of Person(s) to Perform Drinking-water Analyses

In circumstances where Ministry of Health recognised laboratory is not used.
 Health (Drinking Water) Amendment Act 2007, Section 69ZP(1)(h)

Person responsible for drinking-water supply:			
Address:			
Phone:		Fax:	
E-mail:		Date form completed:	

1 Please complete the table below.

Name(s) of individuals to be authorised	Drinking-water analyse(s) to be undertaken by this individual (there is a list at the end of this form of common analyses, enter the associated letter, eg, (A) or state determinand and measurement method/equipment used)	Drinking-water supplies where this individual will undertake the stated analyses (state name and drinking-water register code)
1.		1. 2. 3. 4. 5.
2.		1. 2. 3. 4. 5.
3.		1. 2. 3. 4. 5.

2. Please state reason why it is not practicable to use a Ministry of Health recognised laboratory for these analyses.

List of drinking water analyses and test method

- (A) E. coli testing by Coliart™
- (B) E. coli testing by Colitag™
- (C) E. coli testing by B2P
- (D) Chlorine testing by DPD Colorimetric method using photometer
- (E) Chlorine testing by iodometric electrode technique
- (F) Chlorine testing by amperometric titration method
- (G) Chlorine testing by syringaldazine (FACTS) method
- (H) Chlorine testing by polarographic sensor method
- (I) Chlorine testing by electrochemical sensor (eg, ChloroSense by Palintest)
- (J) pH testing by electrometric method
- (K) pH testing by colorimetric method
- (L) Turbidity by nephelometric method
