

We are focused on delivering the Government's goals of a strong public health care system and improved and more equitable outcomes for New Zealanders

We're delivering the Government's priorities:

Other immediate priorities:

- achieving equity
- child wellbeing
- mental health
- primary health care
- drinking-water regulation
- DHB performance framework
- maternity care and midwifery
- planned care
- capital asset management

We are addressing and responding to the Performance Improvement Framework review

We will deliver on and measure progress against our strategy

We are working differently

- Better sector engagement
- Better information on sector performance
- Aligning capacity with Government priorities
- Organisational capability

We are working to optimise the system

- Improved and more equitable health outcomes
- Improved quality, safety and experience of care
- Best value for public health system resources
- Well trained and supported health workforce

We are **prioritising** our resources around delivery of **four workstreams**

1. Government health priorities

- Equity
- Child wellbeing
- Mental health
- Primary health care

2. Immediate system priorities

- Planned care
- Drinking-water regulation
- DHB performance
- Maternity
- Capital asset management

3. Priority supporting activities

- | | |
|---|----------------------------------|
| Aged Care | Medicinal Cannabis Agency |
| Anti-Microbial Resistance | National Data Collection |
| Appropriation Review | Transformation |
| Bowel Screening | Non-communicable Disease |
| Budget 2019 (Wellbeing Budget) | Prevention and Management |
| Digital Strategy/Electronic Health Record | Organ Donation Agency |
| Disability Support Services | Pay Equity/Industrial Relations |
| Transformation | Sector Operations Transformation |
| Strengthening the Health Workforce | Supporting the Health and |
| Long-Term Planning for | Disability System Review |
| Ambulance Services | Wai 2575 Response |

4. Organisation excellence

Systems and processes
Sustainable system and performance story
Clarity, execution and measurement of strategy

Analytics, insights and voice of the customer
Relationships and ways of working
Strengthening Māori Health capability and capacity

Governance, leadership and stewardship
Culture and capability

Delivering on our **core business** including:

- Policy advice
- Ministerial servicing
- Regulatory services
- Sector payment services
- Technology and analytics
- Commissioning
- Monitoring sector performance

In our work we will address the Government's **Treaty of Waitangi** obligation to improve Māori health outcomes
