35	Nelson Bays Primary Health	89%		▼
36	West Coast PHO	88%		▲
	All PHOs	95%		–

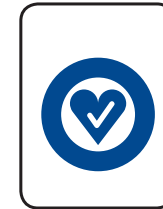

Increased immunisation
The national immunisation target is 95 percent of eight-month-olds will have their primary course of immunisation (six weeks, three months and five months immunisation events) on time. This quarterly progress includes children who turned eight months between January and March 2016, are enrolled in a PHO and who were fully immunised at that stage. Consequently, the All PHOs percentage above will be different to the All DHBs percentage.

Better Help for Smokers to Quit Using Primary Health Organisation Data

Ranking	PHO	Quarter three performance	90%	Change from previous quarter
1	Manaia Health PHO Limited	95%		▼
