36	Eastern Bay Primary Health Alliance	81%	90%	▼
All PHOs		93%	90%	-

#### Increased immunisation

The national immunisation target is 90 percent of eight-month-olds will have their primary course of immunisation (six weeks, three months and five months immunisation events) on time by July 2014 and 95 percent by December 2014. This quarterly progress includes children who turned eight months between April and June 2014, are enrolled in a PHO and who were fully immunised at that stage. Consequently, the All PHOs percentage above (93%) will be different to the All DHBs percentage (92%).

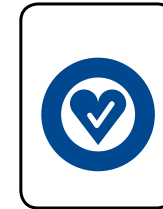

### Better Help for Smokers to Quit Using PHO Performance Programme (PPP) Data

35	Cosine Primary Care Network Trust	52%	90%	-
36	Well Health Trust	51%	90%	▲
All PHOs		86%	90%	▲

#### Better help for smokers to quit

The national target is that 90 percent of patients who smoke and are seen by a health practitioner in primary care are offered brief advice and support to quit smoking. \*Manaia Health PHO and Procure Networks results are above 100 percent as, in addition to offering advice in primary care settings they contacted patients who had not recently attended their general practice to offer them brief advice and support to quit smoking.
