36	Ngati Porou Hauora Charitable Trust	74%		▼
All PHOs		93%		-

Increased immunisation

The national immunisation target is 95 percent of eight-month-olds will have their primary course of immunisation (six weeks, three months and five months immunisation events) on time. This quarterly progress includes children who turned eight months between January and March 2017, are enrolled in a PHO and who were fully immunised at that stage. Consequently, the All PHOs percentage above will be different to the All DHBs percentage.

Better Help for Smokers to Quit Using Primary Health Organisation Data

Ranking	Primary Health Organisation	Quarter three performance	90%	Change from previous quarter
1	Nga Mataapuna Oranga Limited	96%		▲
2	Ngati Porou Hauora Charitable Trust	95%		▲
