Children's Worker Safety Checks

Introduction

A Children's Worker Safety Check is a legislative requirement under the Vulnerable Children Act 2014 (the Act) for children's workers providing maternity services. It will be required for existing primary maternity services providers from 1 July 2018 and is a current requirement for all new authorisations to claim under the Primary Maternity Services Notice 2007. The information in this document is relevant for all providers of primary maternity services, whether midwives, general practitioners or other health professionals.

CV Check (NZ) Ltd (CVCheck) provides independent third-party safety checks on children's workers to help individuals and employers comply with their obligations under the Act. These safety checks involve gathering a range of key information about a person and evaluating this information to determine whether the person poses any risk in being employed to work with children.

CVCheck has been Gazetted by the Director-General of Health and selected as the provider of Children's Worker Safety Checks for specific groups of children's workers from the Ministry of Health, Ministry of Education and Ministry of Social Development (see <https://gazette.govt.nz/notice/id/2017-go730>)
