

Hosted by the Ministry of Health

Join us for this 90-minute Zoom session to learn about and plan for SNOMED CT implementation in DHB emergency departments.

21 September 2020, 11.30am to 1.00pm

SNOMED CT for DHB emergency departments

- NCAMP 2020 and 2021 required changes
- Essential technical requirements for DHBs and their industry partners to implement SNOMED CT in the ED setting
- ED reference set changes and release cycle
- ACC injury claims API integration
- SNOMED CT terminology services using the Snowstorm terminology server
- DHB early adopters share their experiences

[REGISTER NOW](#) for this free event.

For more information and registration email to:

SNOMED_CT@health.govt.nz

Discussions are non-commercial. DHB vendors, technical and clinical staff are welcome.

SNOMED CT is the international terminology standard for quality health information and interoperability.
