

# How to get your NZ COVID Tracer poster

## PUBLIC TRANSPORT OPERATORS

Small operators can create QR Code poster self service portal: <https://qrform.tracing.covid19.govt.nz/>

For large number of vehicles you can create a bulk amount of office QR codes.

Simply download and complete the Excel spreadsheet here: [Transport Sector QR Code Template](#).

If you have questions and need support, you can email: [help@covidtracer.min.health.nz](mailto:help@covidtracer.min.health.nz)

## TAXIS, SHUTTLES & RIDESHARES

Go to <https://qrform.tracing.covid19.govt.nz/> to generate an official QR poster for your vehicle. You will be asked for your drivers license to verify who you are, this is only used as a verification process and not used for anything else. *Remember, a separate poster is required for each vehicle.*

## TIPS FOR FILLING IN THE LOCATION INFORMATION

We know that it's not that easy to assign an address to a moving vehicle, so here are some examples of how to fill it in.

LocationName	LocationAddressLine1	LocationAddressLine2	LocationAddressLine3
Train-4103	Train	Transdev	Wellington
Cobar Cat	Ferry	East By West	Wellington
Bus-7102	Bus	Metlink	Wellington
Taxi-AA66666	Taxi	Purple Taxis	Wellington

## WHERE TO DISPLAY IN:

### TAXIS, SHUTTLES & RIDESHARES

You could place it on a clipboard for people to scan.

Or you could fix the poster to the back of the passenger seat.

Have QR Code poster display at each entrance and exit and multiple places inside the vehicle/vessel/carriage too

If you don't have a printer at home, try your local library

Remember to ask everyone in the vehicle to scan, not just one person if they are travelling in a group.
