Bacteriological Compliance

LA Supplies

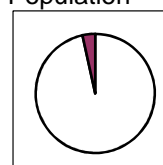

LA water supply zones	2009/10	2008/9	Trend
Number of complying zones	538	494	Increased
Complying zones	76.1%	71.9%	Improved
Population in complying zones	3,655,097	3,404,396	Increased
Population in complying zones	96.6%	93.1%	Improved
Reasons for non-compliance			
Inadequate corrective actions	30	33	Improved
Faecal contamination	105	112	Improved
Not monitored	35	28	Worse
Non-recognised laboratory	0	0	-
Not enough monitoring	33	89	Improved
Too long between samples	35	62	Improved
Too few days of the week	35	51	Improved
Other	0	0	-

Protozoan Compliance

LA Supplies

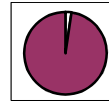

LA water treatment plants	2009/10	2008/9	Trend
Number of complying plants	153	142	Increased
Complying plants	23.6%	22.6%	Improved

Proportion of supplies
Zones

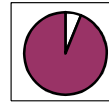

School Supplies

School water treatment plants	2009/10	2008/9	Trend
Number of complying plants	14	4	Increased
Percentage of plants comply	2.4%	0.7%	Improved

Other Supplies

Other water treatment plants	2009/10	2008/9	Trend
Number of complying plants	63	33	Increased
Complying plants	6.1%	3.1%	Improved

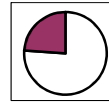

Chemical Compliance

Supplies with chemical assignments	No.		Population	
LA supplies	184	90.2%	2,568,895	99.2%
School supplies	3	1.5%	1,800	0.1%
Other supplies	17	8.3%	18,242	0.7%
Total	204		2,588,937	

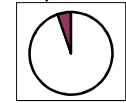

LA Supplies

LA water supplies	2009/10	2008/9	Trend
Number of complying zones	140	146	Decreased
Population in complying zones	2,433,551	2,433,976	Decreased

Zones

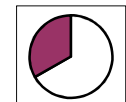

Population

Other Supplies

Other water supplies	2009/10	2008/9	Trend
Number of complying zones	10	8	Increased
Population in complying zones	12,200	12,200	Same

Compliance and non-compliance with DWSNZ for chemical assignments
