Party Drugs – Psychoactive Substance Act.

The Buller District Council supports a total ban of "Party Drugs" that contain any psychoactive substances. The damage that is being done to our youth and community is so unacceptable that we must have a total ban. We request very strong penalties be put in place, not only financial but confiscation of property and prison be a result of producing, import and marketing such substances.

M023

I agree with you 100%. I am meeting with the Minister tomorrow with a proposal that I believe will enable the cannabinoids to be banned from entry.
I will also be using the Health Act 1956 which give Local Government specific powers and asking what would be his government's response if we all invoked those powers. If the argument is "if can't name then can't ban" then why not name those that are permitted as the only entries into the country. Watch the space if Labour comes out with a ban proposal Neil Sinclair South Waikato

Dear Tony

As Mayor of the Southland District Council, I strongly support the initiative to ban the sale and supply of mind-altering drugs and substances of any kind not covered by other legislation.

As a past frontline Constable of some 25 years' service I have witnessed the affects drugs and harmful substances can do.

Personally I am appalled that mind-altering drugs or substances are available, firstly to our young people and those that should know better.

Subject: RE: Request for you to support a ban of the sale and supply of psychoactive substances

Good morning Tony

Just arrived back from visit to family in UK so a bit late, however I am in full support. We have had a horror story or two in Taranua over Legal Highs. We now have it under control after I walked with police, Salvation army and others through the whole of our retail sector in all our towns with great results. Banning would be great, but we keep getting excuses from MPs and the powers that be.

Keep going and will support you.

Regards

Roland

Subject: Re: Request for you to support a ban of the sale and supply of psychoactive substances

Kia Ora Tony

Our council has begun the process of developing a psychoactive substance policy.

I have discussed your request to support your approach to the government for legislative change with our Strategy and Policy Chair Cr Philippa Baker-Hogan and we both support your stance.

This will be taken to our meeting on the 24th February and I will advise if our support is backed by the council.

Kind regards

Annette
