

Plan for Caring for Children

Being a parent is an important role. This plan helps everyone support the children, family and whānau of people who are parents and who also use mental health or addiction services.

If children need care due to a parent's illness or time in respite/rehab/hospital, it is good to record the wishes of everyone involved ahead of time. The plan is about being prepared and talking through possible processes and issues – the plan may never have to be used.

Take the time you need to work through the plan with staff and support people. Talk with your children, as appropriate, and with family and whānau. The plan is not legally binding; talk about any legal or custody issues with staff and support people as you work through the plan.

This plan contains information to be used in the care of my/our child/ren, should I/we be unable to care for them temporarily.

If a parent has to be away for a while (eg, in hospital), I/we would like the following to occur, if possible.

- Children to visit when parent is well enough
- To speak with the child/ren regularly by phone when parent is well enough
- The opportunity for the child/ren and parent to write to/email/text one another
- The opportunity for the child/ren and parent to have photos of each other
- Other

Please add any other information.

Signatures

This is not a legally binding agreement, but a plan to support children. Talk to staff about the privacy and confidentiality of the people mentioned in this plan, to make sure privacy is maintained.
